

ABLE Installation

In order to launch ABLE, please install either **Oracle Java** OR **OpenJDK AND IcedTea-Web**.

Installing Oracle Java

1. Go to <https://www.java.com/en/download/>
2. Download the installer.
3. When the download is complete, click Open and follow the prompts to install Java.
4. Restart your system.

Installing OpenJDK and IcedTeaWeb

OpenJDK

1. Go to <https://adoptium.net/temurin/releases>.
2. Download the latest release of JDK 8 – LTS.
3. When the download is complete, click Open and follow the prompts to Install the JRE version. (It will not matter if you install the JDK.)

IcedTeaWeb

1. Go to <https://adoptopenjdk.net/icedtea-web.html>.
2. Download the latest release that is compatible with your system.
3. When the download is complete, click Open and follow the prompts to install IceTeaWeb.

After both have been installed, restart your system.
